SCHOOL BUS SAFETY CAMPAIGN

January 29 to February 9, 2018

CLASSROOM ACTIVITY SHEET

For preschoolers and elementary students.

AN ESSENTIAL SAFETY CAMPAIGN

From January 29 to February 9, 2018, the Bus Carriers Federation will hold a school bus safety campaign in collaboration with many partners, including the Société de l'assurance automobile du Québec (SAAQ). The theme *Did you see me?* speaks directly to school children, who must make sure they are seen by the bus driver whenever they go near or get off a school bus. Children must also be seen by other road users, whether they are going to the bus stop or crossing in front of the bus.

THE SCHOOL COMMUNITY:

AN IMPORTANT PLAYER IN THE SAFETY OF SCHOOL CHILDREN

Parents and teachers are natural allies when it comes to reminding students about school bus safety rules. With this in mind, the Bus Carriers Federation and its partners provide you with a brand new website (www.mastuvu.info), where you can find a bundle of activities to do with students, as well as the entire collection of *Sam and Bloop adventures* in digital format.

AN EDUCATIONAL BOOK

Sam and Bloop Plant a Tree is intended as a support resource for school bus safety activities for preschoolers and elementary school students. The book aims to help students understand that they are responsible for their own safety in and around the school bus and so they must understand safety rules and apply them at all times.

The poster introduces the main characters and the theme of the campaign. We encourage you to prominently display the poster in your classroom and to explain the theme to your students.

QUIZ

Test your knowledge of school transportation safety! Using your interactive board, review safety rules by completing the quiz found in the "Classroom activities" section of the www.mastuvu.info website.
